Description

- Permanently solidifies to "lock" in absorbed acidic liquids; won't leak back out or revert to a liquid state when handled or placed under pressure
- Environmentally friendly product absorbs acids and corrosives including sulfuric, hydrofluoric, phosphoric, acetic and hydrochloric acids as well as hydrazine
- Forms a solid mass without expanding for easier, less expensive recovery and cleanup; typically absorbs seven times its weight so you'll use less material and cut your disposal costs
- Chemically inert, non-toxic product is safe to handle and use
- Non abrasive product will not damage floors or expensive laboratory countertops
