PRODUCT DATA SHEET

Item Number	:	MAT304
Item Name	:	PIG® Acid Encapsulating/Neutralising Mat
Contents/Package	:	25/Box
Colour	:	Mauve
Dimensions	:	28cm W x 30cm L
Composition	:	Polypropylene Fibre Sodium Carbonate & Alizarin (Contains No Hazardous Ingredients)
Absorbency	:	2.4 L/Box
Weight	:	1 Kg

Description

- Encapsulate and neutralise the most common acid spills; great for battery charging, transport and storage areas
- Colour changes as liquids are taken in, then remains in a colour-changed state when neutralization is complete; helps identify the best time to handle with the least amount of risk
- Instantly absorbs up to 98% concentrations of sulfuric acid
- Gelling agents solidify acids during neutralisation; prevents them from leaching out of sock
- Not for use with hydrofluoric acid.

Warnings & Restrictions : HAZ-MAT Notice: To ensure effectiveness and your safety, we recommend that you conduct compatibility and absorption testing of your chemicals with PIG® HAZ-MAT products prior to purchase. If you have any questions or need samples to test, please call Technical Services.

Hydrofluoric Acid Notice: Not for use with hydrofluoric acid.
